About Us

BACKGROUND

We are a group of individuals with a strong associative background who have chosen to make ourselves available to the community.

THE FOUNDATION

In 2023, Mosaica APS was established through the collaboration of founders with experience in communication, youth education, project design, and association work. Our mission is to promote equality, social integration, and non-formal education in a European context.

Mission

OUR GOALS

Mosaica APS is a beacon of hope for a more just and inclusive world. Our mission is to promote equality, social integration, and non-violence by breaking down the barriers of discrimination and prejudice. We are committed to driving change through non-formal education, awareness, and the promotion of European values.

Vision

Our vision is of a society where every individual, regardless of their origin, gender, sexual orientation, or background, can thrive and contribute to the common good. We envision a world where differences are celebrated, and diversity is regarded as a valuable resource.

Social aggregation

FOR A MORE UNITED AND COHESIVE SOCIETY

Mosaica aims to be a hub for social engagement for both the youth and adults, establishing spaces for sharing and active participation. We employ tools such as sports and artistic activities to bring people together, foster inclusivity, and build strong bonds within our community.

Current Projects

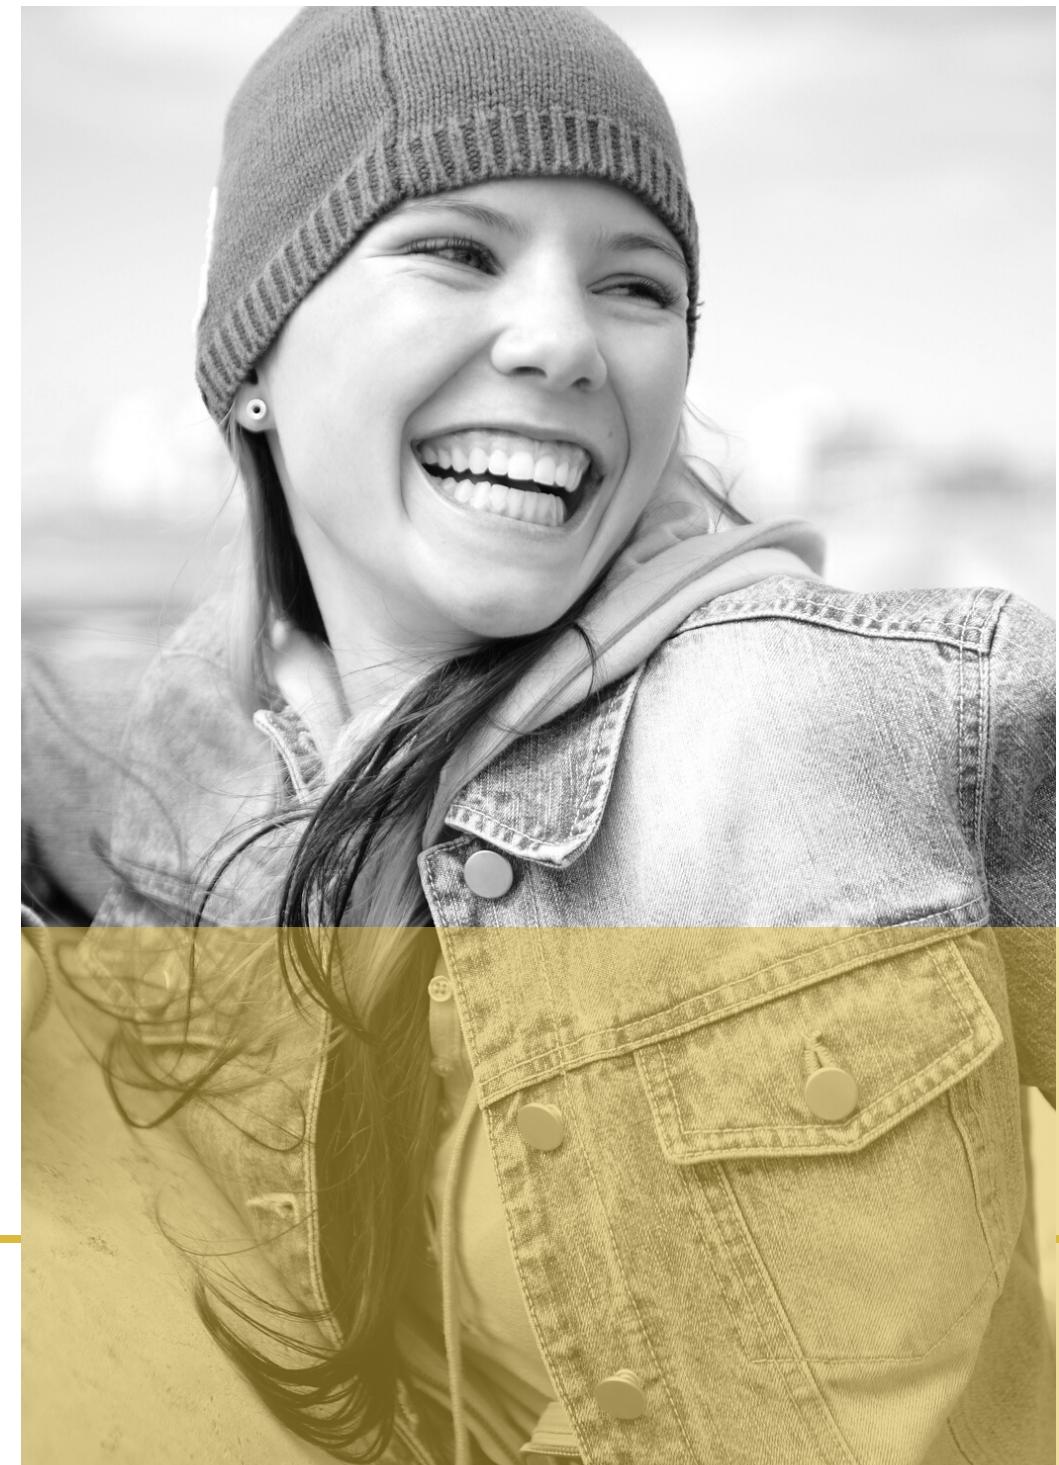

WHAT DO WE DO?

Currently, Mosaica APS offers a wide range of projects and initiatives, including courses and workshops on gender equality, combating discrimination, non-formal education, and social cohesion. We collaborate with local, regional, national, and European institutions to provide unique opportunities for learning and personal growth.

Future Projects

**WE ARE ALWAYS READY TO
DEVELOP NEW IDEAS.**

Looking ahead, we aim to expand our activities and reach an even broader audience. We are planning further awareness programs, cultural events, and international partnerships to enrich people's learning journey and promote our mission on a global scale.
